

# FAA SAVES IT HW

## FEDERAL AVIATION ADMINISTRATION STRATEGIC SOURCING FOR THE ACQUISITION OF VARIOUS EQUIPMENT AND SUPPLIES IT HARDWARE

**Type:** Indefinite Delivery Indefinite Quantity (IDIQ)

**Contract Number:** 692M15-19-D-00015

**Authorized Buyers:** Mandatory use by all FAA and may also be used by the National Airspace System (NAS) and other Department of Transportation (DOT) entities.

**Expiration Date:** July 31, 2024

## OVERVIEW

The SAVES contract was established to deliver quality customer service while controlling costs to support the FAA in their drive to improve efficiencies and safety in our national aerospace systems.

Through this contract Iron Bow will provide hardware and professional services in support of servers, storage systems, network devices, personal computing devices and peripherals to aid the FAA in their next Generation Air Transportation System (NextGen) initiatives.

## IRON BOW ADVANTAGES/BENEFITS

- Solutions approach promotes standardization and leverages strategic planning.
- Advanced solutions expertise enables virtualization, unified communications, cloud services, borderless networks, mobility and telework.
- Assessments provide a report card and road map for your infrastructure.
- Skilled technical support and customer service nationwide.
- Proven, reliable PMI-based services methodology.
- Proven past performance as an incumbent on previous SAVES contracts and current holder of FAA SAVES VTC vehicle.
- Strong partnerships and top tier certifications with leading manufacturers.
