**FLEXIBLE**  
**TARGETED**

## REMOTE WORKFORCE — DISTANCE LEARNING

When education service providers need to roll out distance learning capabilities, Iron Bow Technologies is here to keep your classrooms connected, so learning doesn't have to stop.

Through our partnership with Cisco, we are providing FREE cloud-based WebEx collaboration services and consulting services to help you.

*For the next 30 days our clients can take advantage of the following.*

Free Webex.com accounts, including the following capabilities:

- Unlimited meetings, with participants up to 100
- Adding Toll-Dial In to complement our high-quality VoIP meeting join experience
- Ability to experience meetings on your desktop or mobile device
- Screen sharing and recording with 1GB cloud storage
- Webex Teams unlimited messaging
- Video conferencing

Iron Bow engineering assistance for instructors and students alike, includes:

- Basic WebEx Training for Instructors
  - Virtual class lesson planning
  - Preparing students for a remote class
  - Facilitating virtual group projects
  - Keeping students engaged from home
- Basic Training for Students
  - How to join a class remotely
  - How to work in virtual groups
- Technical troubleshooting during the initial rollout
